

LCD VIDEO WALLS & DISPLAYS LIMITED WARRANTY

This LCD Video Walls & Displays Limited Warranty (“Warranty”) is offered by Planar Systems, Inc. (“Planar”) concerning products listed in Schedule A, the **Covered Products Table** (referred to as a “Product” or plural, “Products”), subject to the terms and conditions of this Warranty statement.

LCD Video Walls & Displays Limited Warranty

Planar warrants to the original registered end user customer who purchases new Planar Products covered by this Warranty from Planar or its authorized dealer or distributor (“Customer” or “you”) that, commencing from the date of Planar’s initial shipment of the Product, the Product will be free from defects in material and workmanship for the specified period listed on Schedule A (the “Warranty Period”) under normal use and maintenance.

Customer’s sole and exclusive remedy under this Warranty will be, at Planar’s determination, repair or replacement (or alternatively a pro-rated refund) of any component part or Product according to the process described in this Warranty. Replacement parts or Product may be new or refurbished. If repair or replacement is determined by Planar not to be commercially feasible, Planar will refund a prorated share of the price at which Planar originally sold the Product. The prorated refund will be calculated based on the remainder of the Warranty Period of the Product and the price at which Planar sold the Product.

As used herein, “end user” means use of the Products for your personal use only and excludes resale, rental, lease or transfer of any kind.

All accessories, Field Replaceable Units (FRUs) and components (including but not limited to cables, power supplies and boards) purchased AT THE TIME of the initial Product purchase are covered by this Warranty. For items purchased AFTER the initial Product purchase, any standard warranty period for Accessories shall apply.

Any additional warranty specifications are detailed in Schedule A.

Repair & Replacement

Planar’s LCD Video Walls are designed to be easily serviceable by the Customer. The majority of parts are built as modules called Field Replaceable Units (“FRUs”). It is often easier and more cost effective for Customers to replace FRUs than to send the entire Product back to the factory for repair.

General Process

Upon Customer discovering a problem with a Product, which Customer believes may be covered by the present Warranty, the process below should be followed:

1. The Customer or its authorized dealer contacts Planar Technical Support via email or phone, see **Planar Contact Information** below.
2. You must have the model number, serial number and original proof-of-purchase available. Provide the serial number, product model number, purchase date, description of the problem and troubleshooting steps already attempted.
3. Planar Technical Support will attempt to correct any minor issues that might be causing the problem. If Customer contacts Planar Technical support via phone and Planar is unable to resolve the problem through troubleshooting, Planar Technical Support may issue a return material authorization (“RMA”). The applicable Product complaint will undergo preliminary evaluation and, if Planar determines the Product might qualify for potential repair or replacement under this Warranty then, at Planar’s sole discretion, replacement parts may be sent to Customer before the potentially defective part is returned to Planar (“Advance Replacement”).

Planar's decision to issue an RMA and/or provide Advance Replacement is not an admission that Customer's problem qualifies as a Product defect. Planar reserves the right, upon return of a Product from Customer, to reasonably determine that Customer's problem is not a defect in material or workmanship (e.g. for an NFF unit, defined below).

4. If Planar Technical Support issues an RMA, Customer will:
 - a. Return only the part or Product with which Customer discovers a problem.
 - b. Return the part or Product to the repair location specified by the Planar Service Representative. Clearly mark the RMA number on the shipping box. Verify that the RMA number on the shipping box matches the RMA number for the part being returned.

Customer is responsible for all shipping charges, including but not limited to freight charges, taxes, duties and insurance related to sending the applicable part or Product to Planar. Planar will cover the costs for any return shipping of a part or Product pursuant to this Warranty if the following criteria are satisfied: (a) the return shipping address is the same as the original Customer address (or is another mutually agreed address) and is located within the North America region, and (b) the return shipment is provided to the Customer by ground delivery or a lowest cost alternative in Planar's discretion.

Advance Replacement

In the event Planar elects to provide Advance Replacement in its sole discretion:

1. Planar will ship the Advance Replacement via ground shipping (or the least expensive shipping method). Customer is responsible for excess charges for any other method of shipping requested. Shipment cost coverage to locations outside of the United States will vary.
2. Upon receipt of the replacement part or Product, Customer should inspect the packaging and materials for shipping damage. Report all damage immediately to the carrier and/or your Planar Service Representative.
3. If a part or Product with which Customer discovered the problem is to be returned to Planar, Customer will have 14 days from the date of receipt of the Advance Replacement to return the part or Product to the authorized return facility. If it is not returned within this time, Planar will invoice Customer and Customer will pay the current market price of the Advance Replacement within 30 days from the invoice date. Planar reserves the right to refuse warranty service for a past due account.
4. For returns, Customer will:
 - a. Return the defective part or Product in the box in which the Advance Replacement was shipped. LCDs must be shipped on a pallet in a vertical position.
 - b. Break the tamper tape seal on the LCD panel carriage ONLY after the panel has been tested and inspected. If the tamper tape seal is broken, Planar will assume the LCD panel arrived safely at its destination.

Warranty Restrictions

The Warranty does not include or is limited by the following:

1. Product not purchased from Planar or an authorized Planar distributor or dealer. Product that has been resold, transferred, rented, leased, lost, stolen or discarded. Product that is licensed or loaned for evaluation, testing, or demonstration purposes.
2. Product on which the serial number has been defaced, modified or removed.
3. Product that has been resold, transferred, rented, leased, lost, stolen or discarded.
4. Rental costs for temporary replacement products.

5. Any third-party software or accessory malfunction. For example, Android Package files (APK)'s installed by the user and Google Play are not supported by Planar and may lead to a non-warranted malfunction.
6. Any complimentary spare parts provided at no cost to the Customer.
7. Labor or travel costs for installation, set-up, repair, adjustment to display settings, removal, reinstallation or other services.
8. Product that is physically uninstalled and moved, unless Planar Professional Services handles the move.
9. Bright or dark sub pixels that are characteristic of LCD technology and are within Planar's manufacturing specifications.
10. Damage, deterioration or malfunction resulting from:
 - a. Accident, abuse, misuse, neglect, improper ventilation & cooling, adverse environment (e.g., dust), fire, water, lightning or other acts of nature, smoke exposure (cigarette or otherwise), unauthorized product modification (if applicable, including use of an unauthorized mount), failure to follow instructions supplied with the Product, or operating the Product outside the suggested normal usage conditions stated in the User Guide.
 - b. Installation, removal, disassembly, reassembly, upgrade, repair or attempted repair by anyone other than Planar. Use of supplies or parts not meeting Planar's specifications. Opening of the chassis by untrained personnel, tampering with internal circuitry or removing or replacing any internal components or parts of the Product.
 - c. Any damage to the Product during or due to shipment. If the security tape has been removed, Planar will assume the product arrived with no shipping damage.
 - d. Causes external to the product, such as electric power fluctuations or failure.
 - e. Normal wear and tear.
 - f. Customer caused defects, including but not limited to: (i) misuse or damage to drivers, disks or connectors, or software corruption; (ii) cracked LCD, scratched LCD, blemished LCD (dark spot larger than 1/16 inch), or scratched/defaced/altered plastics; or (iii) failure to follow maintenance procedures as outlined in the Product's User Guide.
 - g. Any non-uniformity caused by long-term operation of the video wall with heavily contrasting static content.
 - h. Any other cause not related to a defect in material or workmanship.

Miscellaneous Return Issues

1. Except for few exceptions, Planar will not accept returned Product unless the RMA number issued by Planar is shown on the outside of the box.
2. If a part or Product is returned and is determined to be a No Fault Found ("NFF") unit or the part or Product is returned and determined to be excluded from this Warranty, Planar reserves the right to invoice the Customer for any costs incurred by Planar.
3. It is the responsibility of the customer to properly package the defective Product and ship it to the address provided by the Planar Customer Service representative with the RMA number prominently displayed. If the defective Product is not properly packaged and is damaged in transit during its return to Planar, the customer may be charged for either the repair costs, if repairable, or the MSRP of a replacement product.
4. Shipment delivery time and availability may vary based on origin and destination. Planar is unable to deliver to PO Box and APO/FPO Box addresses.

5. Replacement parts or Product will assume the remainder of the original Product's warranty or 90 days from the date of shipment, whichever is longer.
6. Customer agrees to retain the replacement part or Product delivered by Planar and that the returned defective part or Product becomes the property of Planar.
